\* Regulatory items include those that are consistent with the public interest/safety mandate of the CLPNA, i.e. monitoring, evaluating, and improvement activities designed to enhance the protection of the public. Appropriate background information should be provided.

† This section of the agenda is intended to discuss the boards plan for connecting with owners or to debrief the results of ownership linkage

‡ Scheduled monitoring reports on Ends and Executive Limitations are provided in the meeting package. Discussion should be limited to identifying if a majority of the board is satisfied that there is evidence of compliance with a reasonable interpretation of the policy. If there is not compliance, or if an interpretation is unreasonable, the motion should include the Council's expectation of when a reasonable interpretation and/or evidence is required.

§ The Council reviews the content of any Governance Process policies that are scheduled for routine review, as well as any Governance Process policies that may have been flagged for necessary amendments. Appropriate briefing notes with necessary background information should be provided.

\*\* This item includes operational decisions that have been delegated to the CEO, but which the Council is required to approve because of legislation or an outside authority. Each item is accompanied by a special monitoring report providing the Council with evidence that the decision for which approval is required is consistent with a reasonable interpretation of all relevant board policies. If the Council is satisfied with the monitoring evidence, this section of the agenda is adopted with one motion and no discussion.
